POINTS ABOUT BUGGIES TO BE CONSIDERED!

**The Style!
The Quality!
The Price!**

The large assortment that we carry, together with the HIGH QUALITY of same and our VERY LOW PRICES, are responsible for our rapidly growing business. A large number of people are showing their appreciation of these points by trading with us, and are thereby increasing our business very materially, as well as

Saving Themselves Money.

This last point is what touches a tender spot with most of us, but we want to say that IN NO INSTANCE DO WE SACRIFICE QUALITY FOR PRICE.

**We Sell the
Best Buggy Made,**

No exception, and while it may cost more than some others, it is not way up in price.

TWO NEW ROUTES. WILL CLOSE TO-DAY.

Extension of the Rural Delivery Service in County.

The Gracey and Pon Deliveries Will be Inaugurated Monday.

Rural mail delivery routes Nos. 5 and 6 will be started from this city Sept. 1.

No. 5 will go out the Cadiz road to H. B. Clark's, thence across to the Princeton road and back to the city. J. T. Williamson will be the carrier for this route.

No. 6 will go out the Greenville road to near Pon post office, thence to Kelly on the Madisonville road and back to town. M. A. Littlefield will deliver the mail on this route.

The postoffice at Pon will be discontinued, but a petition is being circulated asking that it be continued. It is alleged that many patrons not on the new route would be left without a postoffice nearer than five miles.

CIRCUIT COURT BUSINESS.

Three More Divorce Suits Filed For Fall Term.

Chas Buckner has instituted divorce proceedings against Henrietta Buckner, and also prays the custody of their 8-year-old son. Abandonment is the allegation. The petition sets forth that they were married in 1890 and lived together about ten years.

Wiley Malory also seeks a legal separation from Susan Malory, alleging abandonment. They were married in Cheatham county, Tenn., in 1895 and only lived to only about two months, says plaintiff.

"Bettie Louise Webb vs. John T. Webb," is the title of another suit for divorce, filed with the Circuit Clerk this week. They were married about eleven years ago. Cruel treatment and failure to provide is alleged.

POST OFFICE ROBBED.

And Two Other Stores Also Burglarized Last Tuesday Night.

Guthrie, Ky., August, 27.—Burglars broke into the post office at Ridge Top, Tenn., at an early hour this morning and blowing open the safe secured eight hundred dollars worth of stamps, a blank money order book and a small quantity of money.

Two stores at Greenbrier, a few miles distant, were also entered by burglars and robbed during the night, but only a small quantity of money was secured. It was thought the robberies were committed by convicts who recently escaped from the state prison in Nashville and bloodhounds from the prison were put on the trail, without success, however.

DEATH OF MRS. MCCARROLL.

Much Esteemed Woman of Macedonia, A Victim of Consumption.

Mrs. Lou McCarrroll died last Monday at her home near Macedonia. She had been ill for nearly a year. Death was caused by consumption. The interment took place Tuesday morning at Macedonia.

Overseer Named.

Lucian Burgess has been appointed overseer of the Gracey road from West Union church to the Cerulean Springs road.

Court Convenes Monday.

Trigg Circuit Court will convene in Cadiz next Monday. The docket is large.

The County Institute Has Had a Fine Week.

Prof. Cherry a Popular Conductor And Many Good Papers Read.

The County Teachers' Institute will conclude its meeting to-day. The sessions have been very interesting every day. Prof. Cherry has proven to be an excellent instructor.

On Tuesday the first subject discussed was "Reading." Prof. Cherry led the discussion, which was participated in by Mr. Pate, Miss Bush, Mr. Sollee and others. After recess Mrs. Keith opened the subject of arithmetic by giving her method of teaching the pupils in the first two years.

Mr. Gray followed in a talk on mental arithmetic.

Mr. Dudley said too much arithmetic was included in the first two years, interfering with thoroughness.

Mr. Sollee, Mr. Manier and others made talks and Prof. Cherry closed the discussion.

At the afternoon session Miss Willie Jackson read a most excellent paper on Grammar.

The subject was discussed by Mr. Burnett, Mr. Bogard, Mr. Alexander, Mrs. Jenkins, Miss Jenkins and Prof. Cherry.

After recess Prof. Cherry discussed "Nature Study."

Mr. Burnett next opened the discussion of Physiology and Hygiene, by saying we must know right, go right and do right. He dwelt upon the importance of talking to the pupils about physical conditions.

Mr. Alexander joined in this discussion, opposing the use of tobacco, which he declared was a conductor of many diseases.

Wednesday morning primary reading was discussed by Miss Hambaugh. Discussed by Prof. Cherry and others.

Prof. J. L. Manier discussed the successful teaching of arithmetic.

Prof. Keith discussed dry, measure and cubic measure.

Prof. Cherry closed with a general talk on the subject of child study.

At the afternoon session Miss Edwin Elliott discussed the use of pen and ink and the best hour for practice.

Miss Cornelia Chambers treated of the relative merits of vertical and slant writing.

A general discussion of geography followed, led by Prof. Cherry.

At the afternoon recess the Institute repaired in a body to the Court Square, and a group picture of the Institute was made by a local artist.

On Thursday morning Prof. Cherry began with an interesting talk on geography and physical geography.

Mrs. W. T. Fowler read a well prepared paper on the development of the faculties by reading.

Miss Hambaugh and Miss Holman were heard on language lessons.

History was discussed in its different branches by Prof. Cherry, Prof. S. T. Fruit, Prof. Taylor and Miss Dove Anderson.

The afternoon session was devoted to school management, with Prof. Cherry leading the discussion, followed by Miss Mary Stoner and others.

Prof. Cherry's public lecture on Education last night at the court house was very interesting. There were several recitations and songs, and the program of the evening was quite enjoyable.

The Institute will finish its work to-day.

Reading, Grammar, Civil Government and School Management will all be further discussed.

VOTING CONTEST

**The Most Popular Lady In
Christian County to Be
Determined By Ballot.**

Beginning Friday, August 29th, a voting contest will be held to determine by popular vote the most popular lady in Christian County. To the lady receiving the highest number of votes, we will present a prize not yet determined upon finally, but which will be worth not less than \$100. The contest will close at 12 o'clock, noon, Monday, Dec. 29, 1902. The plan will be as follows:

Every subscriber to the Kentuckian who pays back dues or cash in advance will be entitled to cast one vote for each five cents paid. That is to say, a subscriber who pays \$2.00 will have 40 votes, one who pays \$1.00 will have 20 votes and so on for any amount large or small. In every paper published after August 29th there will be a coupon and these coupons when cut out and brought or sent to the office will represent each one vote.

A new subscriber who pays \$2.00 August 29th and saves his coupons from the 35 papers before December 29th will have in all 75 votes to cast for his choice. He will also have the privilege of gathering up coupons clipped by his friends from their papers and voting them one at a time, or by the hundred if he prefers. He will also have the privilege of buying papers at the office at five cents each and voting the coupons cut from them, as every paper after August 29th will contain a coupon.

Full details of the prize to be awarded will be given in an early issue. In the meantime the contest may begin with the guaranteed assurance from us that the prize will be worth \$100 or more.

The coupon ballots will be deposited in a ballot box with two keys. One of these keys will be held by County Judge W. T. Fowler and the other by Mayor J. W. Henry. The box will be opened not oftener than once a week, all ballots then in it taken out, counted and certified to, sealed up in an envelope and replaced in the ballot box. The envelope will contain a statement of the votes in it, so that its contents will not need to be counted again until the official count at the close of the contest.

The last week of the contest the ballots may be deposited without showing them, so that the close of the contest may be secret and exciting to the end.

Further explanations will be given from time to time. The voting will begin at 7 o'clock a. m. next Friday. Who will start the ball to rolling?

ANNOUNCEMENTS:

We are authorized to announce

MR. WEBB C. BELL,
Of Christian County, as candidate for Railroad
Commissioner in the First Railroad District of
Kentucky, subject to the action of the Demo-
cratic party, Election Nov. 1903.

DEMOCRATIC TICKET

FOR JUDGE COURT OF APPEALS,
JUDGE THOS. J. NUNN,
OF HOPKINSVILLE.FOR CONGRESS,
HON. A. O. STANLEY,
OF HENDERSON COUNTY.Mont. Pelee is again in violent
eruption.Jane W. Gayle, of Owenston, is
very ill with peritonitis.Gen. Miles has been granted per-
mission to go to the Philippines on
a tour of inspection.Gov. Gage, of California, has been
defeated for re-nomination, the honor
going to Geo. C. Pardee, of Oakland.Ex-Gov. Geo. Hoadley, of Ohio,
died in New York this week, where
he was on a visit, aged 76 years.Next Monday September 1st has
been set apart as Labor Day and
its general observance as such recom-
mended.President Roosevelt is traveling
in Maine making moral lectures.
Unfortunately his high rolling
friend, Gen. Wood, is not along to
hear the good advice.Sam Small, who was sent for to
assist in a prohibition fight at Bat-
tleboro, Vt. appeared on the stand
too drunk to speak. He said he
had only taken five drinks, but the
heat of the auditorium caused him
to collapse.While Gov. Beckham is growing
red in the face fighting a future
merger, it is well enough for him to
remember that the same constitu-
tion that applies to mergers ap-
plies to equal force to the re-elec-
tion of a governor. Suppose we
first try to avert the real calamity
before interfering with Morgan's
business.The Hon. Frank Peak, one of
Kentucky's popular orators, has
just won a magnificent victory over
the machine in the Twelfth district.
His majority was near 3,000 and in
the county of Shelby, where the
Beckhams and Assistant Secretary
of State Simon Cook, made it a
personal fight, Peak's majority
over Carroll was 1,400 votes. Car-
roll only receiving 350 in the county,
and in the Beckham pet precinct
Carroll only received ten votes.
The Shelbyville Sentinel, Charley
Lewis' paper, led the fight for
Peak and is consequently happy
over the result. Mr. Peak is one of
Beckham's avowed opponents in
the governor's attempt to violate
section 71 of the constitution and is
now favorably spoken of as a can-
didate for governor himself.—Mur-
ray Ledger.There is more Catarrh in this
section of the country than all other
diseases put together, and until the
last few years was supposed to be
incurable. For a great many years
doctors pronounced it a local dis-
ease, and prescribed local remedies,
and by constantly failing to cure
with local treatment, pronounced it
incurable. Science has proven catarrh
to be a constitutional disease,
and therefore requires constitu-
tional treatment. Hall's Cat-
arrh Cure, manufactured by F. J.
Cheney & Co., Toledo, Ohio, is the
only constitutional cure on the
market. It is taken internally in
doses from 10 drops to a teaspoon-
ful. It acts directly on the blood
and mucous surfaces of the system.
They offer one hundred dollars for
any case it fails to cure. Send for
circulars and testimonials. Address

MORE ABOUT PRIMARIES.

Our esteemed contemporary of the
Glasgow Times, Editor Richardson,
seems to be the Old Guard of the
advocates of what Mr. Watterson
is pleased to call "government by
machine" in Kentucky. There is
nobody clamoring for a primary
election in Kentucky excepting the
office-holders who seek to perpetu-
ate themselves in office. This
coterie in their dire extremity have
seized upon our amiable friend
Richardson, who can argue better
for camp meetings than he can for
primary elections, and have pushed
him into the breach to urge a dis-
regard of the organic law of the
Democratic party by its highest
governing authority in the State.
Editor Richardson is at his best
when leading a charge, a forlorn
hope as it were, but he is not the
man to sustain a protracted siege.
Holding as he does a State office,
which he was not nominated by the
popular vote, or even by a state
convention, he is one of the last
men who ought to recommend a
sauce for the goose that is not good
for the old gander himself. But
consistency is not always a jewel
that adorns the shirtfront of the
politician. And so Bro. Richardson
threw himself into the conflict, ex-
posing himself in every direction.
One broadside was enough to cause
an inglorious retreat. Not until he
reached the shadow of the machine
did he make another stand. But
he is not the valiant Richardson
he fit, bled and died a month ago.
He comes feebly to the front with
his cherished "platform scheme"
gone glimmering and \$8,350 added
to his expense account.He now suggests that a conven-
tion in the old way should be held
to formulate a platform, a method
that "has been followed by the
Democratic party in Kentucky for
a hundred years." Nobly, said,
Sir James! We accept your sur-
render, upon the condition that
the same convention nominate the ticket
to fit the platform.On the question of law, however,
he does not yield so gracefully.
Having said the horse was sixteen
feet high, he intends to stick to his
figures.The party law is too plainly ex-
pressed to admit of more than one
construction and there is absolutely
no power vested in the State com-
mittee to call a primary. The only
way out of it is to first call a State
convention to amend the party law.
Any strained construction in the
interest of machine candidates will
never do. We know the members
of the Executive Committee well
enough to doubt the boast of the
Times that "It will be held and
don't you forget it."In discussing the statement that
the State convention intentionally
provided that State tickets be nomi-
nated only by conventions, Mr.
Richardson asserts that both State
and district conventions have been
disgraced by fraud, corruption
and boodles.This may be true, but we are
here to say that the opportunities
for fraud in the secret primary are
greater than in any convention.
The secret ballot itself is a vicious
contrivance, an unmanly method of
doing things under cover.
When placed in the hands of a
machine, it is impossible to obtain
honest results.Has Mr. Richardson forgotten
the primary election in Louisville
in June 1899, when the frauds, the
intimidation and the corruption
were so flagrant that the committee
met while it was in progress and
declared it off?Our contemporary asks if we be-
lieve "the great Democratic party
of Kentucky will descend to the in-
fames of the common boodler and
gratifier or lower itself to the level of
slates and sharp politics."
No we do not, but there are those
who would have it do so, and that
is why we would have the committee
resist outside interference and con-
trol to the bitter end. The editor
of the Kentuckian, it is true, is a
part of the State organization, but
he holds that the committee of whichhe is a member is the servant and
not the master of the people.He does not believe that the State
Committee can be controlled by the
coterie of schemers who are advis-
ing the committee to bolt the party's
rules of government, call an illegal
primary, and tax out of the contest
all but the rich.It is worthy of note in this con-
nection that Mr. Richardson is no
longer claiming that a primary can
be held for \$3,500. He has revised
his figures to the following:Seventy-six hundred officers
at \$1 each \$7,600
Ballots, stencils, pads and
notices 2,250
Transportation of ballot-boxes
and incidentals 1,000
Rent of rooms, 1,900 precincts 1,000Total \$11,850
These figures are still too low by
at least two-thirds.We below present an itemized
list of supplies for one of the coun-
ties of the Second district, if the
law be observed, and the party
would surely tolerate nothing short
of a legalized primary in strict con-
formity to every detail of the law.
SUPPLIES FOR HENDERSON COUNTY.The following list of supplies is
based on the actual requisition for
Henderson county in the recent pri-
mary election to nominate one officer
only. There are 31 precincts in
Henderson county, requiring about
4500 ballots. With ten officers to
nominate the books would have to
be much larger, but for the pur-
poses of this exhibit the estimate is
not increased:31 ballot books at \$2.50 each, \$77.50
155 officers' certificates at
\$1.50 per thousand 23
310 statements du bal. count-
ed, \$1 per thousand 30
310 statements du bal. not
counted, \$1 pr. thousand 30
31 officers' receipts at \$1.50
per thousand 5
31 Secretary's receipts at
\$1.50 per thousand 5
31 biotiers 10
155 sample ballots at \$2.50
per thousand 40
31 bottles ink 1.55
31 pens and holders 1.50
31 tally sheets25
93 stencils and pads \$2 per
dozen 15.50
93 cards of instruction at 5c. 4.65
31 large linen envelopes at
35c 10.85
31 small linen envelopes at
10c 3.10
31 needles and thread 3.10
31 candles and wax 3.10
124 instructions to officers 3.72
1100 affidavits at \$1.50 per
sheet 1.65
Sheriff's fees notifying 124 of-
ficers 24.80
Expenses 93 booths (borrow-
ed) 31.00
Keys, etc., for boxes (bor-
rowed) 9.75
Rent of rooms 60.00
124 officers at \$2 each 248.00
Mileage of officers 55.00
Packing, expressing and dis-
tributing 500
Total \$558.15
Averate per precinct \$18.00
This allows nothing for the ex-
penses of the committee in appoint-
ing officers or canvassing the votes.As there are 1900 precincts, the
total for the machine would be \$34,200,
or \$3,420 for each office to be filled.
If there were three candidates for
an office, each would have to pay
\$1,140; if but two, the entrance
fees of \$3,420 would exceed the sal-
ary of the office for the four years'
term.The more we look into this
threatened departure from estab-
lished usages, the more objections
we find.The best physic—Chamberlain's

on Exhibition.Mr. A. P. Freeman, the old piano
salesman, representing the Kreel
Piano Manufacturing company, of
Cincinnati, is here with a beautiful
instrument on exhibition at 112
South Main—under Opera House.A Kentuckian representative had
the pleasure of examining this in-
strument and found it to be of fine
tone, excellent action and the ma-
hogany case is the most beautiful
ever brought to this city.This piano has a practice pedal,
the finest thing for children's use
ever introduced in this country—no
worry—no annoyance.The instrument is the largest
size Cabinet Ground Upright and
will be on exhibition a few days
only.

Went to Visit His Sister.

A. J. Cottingham went to Wash-
ington, County, Ark., to see his
sister and while there was taken
with flux (dysentery) and was
very bad off. He decided to try
Chamberlain's Colic, Cholera and
Diarrhoea Remedy and was so
much pleased with the prompt cure
which it effected, that he wrote the
manufacturers a letter in praise of
their medicine. Mr. Cottingham
resides at Lockland, Ark. This
remedy is for sale by C. K. Wyly.

State College of Kentucky.

The Agricultural and Mechanical (State College) College of
Kentucky offers the following courses of study, viz:
Agricultural, Horticultural, Chemical, Biological, Mathemat-
ical, Physical, Entomological, Physiological, Normal School,
Classical, Mechanical Engineering, Electrical Engineering,
Civil Engineering and Mining Engineering, each of which ex-
tends over four years and leads to a degree. Post-graduate
courses of study are also provided, leading each to master's
degree. Each course of study is organized under a separate
faculty. The general faculty numbers more than forty pro-
fessors and instructors.
County Appointees receive tuition, room rent in dormi-
tories, fuel and lights, and if they remain ten months, traveling
expenses.
The laboratories and museums are large, well equipped, com-
prehensive and modern.
The last and the preceding Legislatures appropriated \$60,000
for a college home for young women and \$30,000 for drill
hall and gymnasium for men.
Military tactics and science are fully provided for and re-
quired by Congress.
Graduated from the several courses of study readily find ex-
cellent positions and liberal remunerations. The demand is
largely in excess of the ability of college to supply.
Last year the matriculation list was 594

Gray Hair

"I have used Ayer's Hair Vigor for over thirty years. It has kept my scalp free from dandruff and has prevented my hair from turning gray."—Mrs. F. A. Soule, Billings, Mont.

There is this peculiar thing about Ayer's Hair Vigor—it is a hair food, not a dye. Your hair does not suddenly turn black, look dead and lifeless. But gradually the old color comes back,—all the rich, dark color it used to have. The hair stops falling, too. 50¢ a bottle. All druggists.

If your druggist cannot supply you, send us one dollar and we will send you a bottle. Be sure and give the name of your nearest express office. Address: J. C. AYER & CO., Lowell, Mass.

NEW TOBACCO FACTORY.

Famous Greenville Plant Moved to This City.

J. H. Eggleston & Sons have bought out the R.T. Martin Tobacco Manufacturing Co., of Greenville, Ky., and are moving the plant to this city. New incorporation articles have been filed for the R. T. Martin Greenville Manufacturing Co., with a capital stock of \$25,000. The incorporators are J. H. Eggleston, W. H. Eggleston, J. M. Higgins, H. C. Helsey and George C. Long, of this city; A. Y. Allen, H. A. McNary and L. Z. Kirkpatrick, of Greenville.

The officers are: J. H. Eggleston, president and general manager. H. C. Helsey, vice president. W. H. Eggleston, secretary and treasurer.

The company will occupy the large new Eggleston building on the corner of Third and Liberty streets and will operate with 50 or 60 hands. All of the regular and special brands of the famous Greenville tobacco will be put up.

Mr. J. H. Eggleston was for sixteen years engaged in the manufacturing business before coming to Hopkinsville and is familiar with all details of the business. Mr. R. T. Martin, of Greenville, will retain a connection with the new company.

APPENDICITIS.

Some Facts Regarding Its Rapid Increase.

Appendicitis among Americans is certainly increasing and while this is probably due to the excitement and worry of American business life, it is more often directly traceable to constipation. Appendicitis is caused by extraneous matter entering the vermiform appendix and not by the swallowing of seeds. If the digestive organs are kept in perfect condition so the food is duly assimilated and the bowels move gently, at least once a day, appendicitis will never develop. Don't take chances. Regular doses of Dr. Caldwell's Syrup Pepsin before meals will strengthen the organs of digestion, your appetite will be good, constipation disappears and you feel better in every way. Dr. Caldwell's Syrup Pepsin does not relax the bowels by irritation, but by curing indigestion, the cause of constipation. All druggists sell in 50¢ and \$1.00 bottles, under a positive guarantee. Write for book of testimonials to Pepsin Syrup Co., Dept. 5, Monticello, Ill.

CAME AS NURSE

And Contracted Disease That Caused Her Death.

Willie Sargent, col., of Pembroke, died Tuesday, at the home of her mother, on Crescent street, of typhoid fever, aged 24 years. The remains were sent to Pembroke Wednesday for interment.

She came here about a month ago to nurse her mother, who was ill of fever, and contracted the disease which caused her death. Her mother has recovered.

Only a Mask.

Many are not being benefited by the summer vacation as they should be. Now, notwithstanding much outdoor life, they are little if any stronger than they were. The tan on their faces is darker and makes them look healthier, but it is only a mask. They are still nervous, easily tired, upset by change, and they do not eat nor sleep well. What they need is what tones the nerves, perfects digestion, creates appetite, and makes sleep refreshing, and that is Hood's Sarsaparilla. Pupils and teachers generally will find the chief purpose of the vacation best subserved by this great medicine which, as we know, builds up the whole system.

HERNDON HAPPENINGS.

Mrs. Herman Crenshaw and little son, Thomas, are guests of Mrs. T. V. Dawson this week.

Mr. and Mrs. John Johnson, of Hopkinsville, were guests of Mr. and Mrs. W. E. Mitchell Saturday and Sunday.

Mrs. Kate Fuqua and daughter, Lillian, returned to their home in Clarksville this morning, after a several days' visit to Mrs. Mary Lou Coleman.

Messrs. C. W. Johnson and C. W. Mitchell, Sr., were in your city Friday.

Miss Virginia Williamson, who is visiting Miss Ruth Weaver, is quite ill with fever.

Messrs. Percy Richardson, the popular young depot agent at Gracey, and Will Buckberry, the well known conductor on the Clarksville and Gracey division of the L. & N.

COME TO BOOKS.

All Schools in the City Open Next Week.

Colleges Have Fine Prospects For Increased Attendance.

All of Hopkinsville's schools will begin their fall sessions next week and every indication points to an increased attendance at all of them.

Bethel Female College.

This old and reliable institution, of which Prof. Edmund Harrison is President, has a boarding capacity of 60 young ladies, and room for as many more day pupils. The session is expected to open with the boarding department well filled and a larger outside attendance than ever before. One of the strong recommendations of this school is the fact that the same pupils return from year to year, until their educations are completed.

South Kentucky College.

The growth of this college during the last few years has been phenomenal.

year the total enrollment was 879, of which 412 were boys and 477 girls. There will be one new room this year, making 22 teachers, including the Superintendent.

The schools will open with a new Superintendent, Prof. J. B. Taylor, who comes from Middleboro. A

paid a visit to Herndon Sunday. Mr. J. M. Anderson was in Clarksville Monday.

Miss Laura Boone Coleman is visiting in Clarksville this week.

Mr. and Mrs. J. S. Jobe were guests in our city Sunday.

Miss Cravens is visiting her sister, Mrs. Bouldin, this week.

Mrs. Yancey, of Casky, is visiting Mrs. Hiram Sivley, of near this place. Goo Goo.

A Worm Killer.

J. A. J. Montgomery, Puxito, Wayne county, Mo., writes: "I have little twin girls, who have been bothered with worms all their lives. I tried everything to relieve them which failed until I used White's Cream Vermifuge: the first two doses brought four worms from one of them, the next two doses, twelve, one of them measuring twelve inches; the other child was only relieved of four worms. It is a most excellent medicine." White's Cream Vermifuge is good for worms, it helps the child to perfect growth, wards off sickness. 25¢ at R. C. Hardwick's.

Representatives Elected.

At the regular meeting of Green River Lodge L. O. O. F. the following members were elected as representatives to the Grand Lodge: G. H. Champlin, G. E. Randle, W. H. Lee and G. M. Clark.

A YOUNG LADY'S LIFE SAVED

At Panama, Columbia, By Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Dr. Chas. H. Utter, a prominent physician, of Panama, Columbia, in a recent letter states: "Last March I had as a patient a young lady sixteen years of age, who had a very bad attack of dysentery. Everything I prescribed for her proved ineffectual and she was growing worse every hour. Her parents were sure she would die. She had become so weak that she could not turn over in bed. What to do at this critical moment was a study for me, but I thought of Chamberlain's Colic, Cholera and Diarrhoea Remedy and as a last resort prescribed it. The most wonderful result was effected. Within eight hours she was feeling much better; inside of three days she was upon her feet and at the end of one week was entirely well." For sale by C. K. Wyle.

nominal. The boarding department has room for 40 young ladies and a good many more young men, and both buildings will start out crowded to their full capacity and many young men will occupy rooms in the private homes near the dormitory. Last year there were nearly 200 pupils enrolled and this year the total is expected to reach 225. Prof. A. C. Kykendall is at the head of the male and Prof. H. C. Smith of the female department.

Hopkinsville High School.

Maj. J. O. Ferrell's select high school for boys will open with a considerable increase in attendance over last year. The rates have been reduced and as a training school this long-established institution occupies a field of its own. The present session will be the 30th since Maj. Ferrell took charge of the school.

The Public Schools.

The City Public Schools will begin with nearly 1,000 pupils. Last year the total enrollment was 879, of which 412 were boys and 477 girls.

Miss Susie Garnett, a graduate of the High School. All of the other teachers were in the faculty of last year.

But slight changes have been made in the assignment of teachers. Always an interesting feature of the opening day is to be found in the 100 or 150 little tots who enter the primary grades for the first time and begin the eleven years' course. These grades are taught by Mrs. E. W. McKenzie and Miss Lottie McDaniel.

On this page will be found an excellent picture of the new Virginia Street School building, which is to be fully occupied for the first time. During the summer the grounds have been beautified and a fountain placed in the front lawn.

The Colored Schools.

The colored schools will also open with perhaps 500 pupils. Mr. James Southall will return today from a visit to Dawson.

WARM WEATHER

For First Few Days Of Next Month.

Frost In North About 4th to 8th And Again About the 18 to 20

Below we give a summary of the weather for September as figured out by Rev. Irl R. Hicks:

Warm weather generally will most likely prevail at the opening of the month, with falling barometer, growing humidity and other storm indications spreading eastward and southwest. On and touching the 2nd to 4th of months of rain, wind, and thunder. If a very low barometer and West India hurricanes reach our south coasts at this time they will either reach interior sections and travel thence to the Lakes causing high temperature and storms of rain, wind and thunder, or they will move up the Atlantic coast causing danger in those regions and bringing high barometer, northerly winds and quite cool weather over all northern and central parts of the country.

The chances are that frosts will occur northward about the 4th to the 7th.

The regular storm period, central on the 13, will almost certainly bring on a state of stormy and unsettled weather that will continue in a general way into the reactionary storm days centering about the 17th and 18th. One of the danger periods for September will be about the 17, 18, and 19.

Expect very cool nights and frost to follow.

The last regular storm period for September is central on the 24 extending over the 22 to 27. This period is at the center of the earth's autumnal equinox, with moon at greatest declination north, perigee and last quarter. Another series of very decided equinoctial storms is both possible and probable at this time.

The month closes in a reactionary storm period incited by the passage of the Moon over the equator on the 30th. On that date and into October 1st, autumnal thunder storms will touch many localities.

Watch for a Chill.

However slight at this time of year and in this climate, it is the forerunner of malaria. A disposition to yawn, and an all tired out feeling even comes before the chill. Herbie, by its prompt stimulant action on the liver drives the malarial germs out of the system, purifies the blood, tones up the system and restores health. 50¢ at R. C. Hardwick's.

Death of Mrs. J. B. Nance.

Mrs. Mattie Hester, Nance died at her home in Frankfort, Ky., Aug. 7, 1902, leaving a devoted husband and sister to mourn her departure. The subject of this notice was personally known to the writer, who looked upon her as one of God's jewels, awaiting the Divine setting. Hers was a gentle, winning, trusting spirit, enlisting at once the love and sympathy of all who knew her. Through years of suffering her faith in God never wavered, but grew brighter as she neared life's goal.

Bereaved ones, be not comfortless, "She is not dead but sleepeth." He who wept with the grief-stricken sisters of Bethany, is not unmindful of your sorrow. Hear his soothing words, "I am the resurrection and the life: he that believeth in me, though he were dead, yet shall he live." And she lives forevermore. Tears and pain have been exchanged for the glad light of God's eternal presence. May this thought rest like a heavenly benediction upon your sorrowing hearts. Arise from your grief and prepare to meet the loved one awaiting you on the other shore. No mortal more faithful and true. This care burdening earth ever free. No spirit more lovely than hers. Now dwells in the presence of God. EMMA GAINES.

Cured Paralysis.

W. S. Bailly, P. O. True, Texas, writes: "My wife had been suffering five years with paralysis in her arm, when I was persuaded to use Ballard's Snow Liniment, which cured her all right. I have also used it for old sores, frost bites, and skin eruptions. It does the work." 22c, 50c and \$1 bottle at R. C. Hardwick's.

"PE-RU-NA NECESSARY TO THE HOME."

[Says Prof. Talfourd Smith, of Georgia.]

PROF. TALFOURD SMITH.

Professor Talfourd Smith, Principal Sileam High School, Sileam, Ga., writes: "With much pleasure I recommend Peruna to all who may be suffering with any trouble of the respiratory organs. I have been using it in my family for the past five or six years and find it to be almost a household necessity. Peruna is truly a grand catarrh remedy and general tonic and will do all that is claimed for it by the manufacturers."

—PROF. TALFOURD SMITH.

Catarrh is inflammation of the mucous membrane. It may be in the mucous membrane lining the eyes or the pelvic organs, throat, stomach, liver, bowels or kidneys.

Catarrh is catarrh wherever located. Peruna cures catarrh wherever located. Peruna is an internal remedy; not a local application.

Catarrh is a systemic disease, not a local disease. If Peruna will cure catarrh in one place it will cure it in any other place, because Peruna is a systemic remedy. It reaches the disease through the circulation in each organ. It eradicates the disease by eradicating it from the system.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

PLENTY OF QUAIL

And Fine Sport Promised During Open Season.

Farmers from various sections of Christian county report young quail plentiful. It was feared that the sleet and ice that prevailed last winter had destroyed so many of the old birds that there would be few hatchings this season. Since the opening of spring, however, the season has been unusually favorable for hatching and rearing the young, and, in consequence, there will be an abundance of the game and fine sport is promised during the open season.

Summer Complaint.

If the stomach and bowels are free from gaseous and sour fluid accumulations the habits regular, your children will go through the heated term without sickness. Dr. Caldwell's Syrup Pepsin corrects all such troubles by removing the obscure cause and keeps the system in perfect working order. All Druggists.

EVERY WOMAN!

Housekeepers, wives, mothers, every woman who has the care of a family or household, has at one time or another spells of backache, nervous weakness, sick headache and disorders in the digestion, caused as a rule by domestic worry, overwork, irregular meals or habitual constipation. To all women who suffer in this way, we say:

TAKE ... Prickly Ash Bitters ... IT CURES.

It performs a marvelous transformation. The tired, weak, despondent, pale and bloodless victim is soon a strong, bright, happy woman, with rosy cheeks and cheerful spirits.

Prickly Ash Bitters is not a disagreeable, harsh-tasting medicine as the name might indicate. It is pleasant to the taste, mild yet powerful in its cleansing and regulating influence in the vital organs.

Druggists sell it—Price, \$1.00

THE AMERICAN MONTHLY REVIEW OF REVIEWS

THE AMERICAN MONTHLY REVIEW OF REVIEWS is commended by Statesmen, Professional men and thousands of others prominent in the world's activities, for its fine discrimination in sifting the actual news from conflicting reports and the presentation of current events in their just proportion. They commend its freedom from daily-paper sensationalism. All men and women who want to know what the world is doing find it an intellectual necessity to judge from the letters received from hundreds. Its editorial is comprehensive, and labor saving to the busy man or woman. Its timely contributions on important topics are the best-informed writers. Its reviews of other magazines give the best of their best work. It is profusely illustrated.

These letters will enable all thoughtful men and women to judge of its value to them:

PRESIDENT
 "I know that through its columns views have been presented to me that I could not otherwise have had access to, because all earnest and thoughtful men, no matter for what cause, are its best friends. It is a publication of very great value. I have sometimes found there very important matter indeed which I should not otherwise have discovered."—George F. Hunt, U. S. Senator, Massachusetts.

EX-PRESIDENT
 "I consider it a very valuable addition to my library."—Grover Cleveland.

"It is a publication of very great value. I have sometimes found there very important matter indeed which I should not otherwise have discovered."—George F. Hunt, U. S. Senator, Massachusetts.

I have found Dr. Moffett's TEETHINA a splendid remedy and aid for my teething children. When my oldest child was teething, every symptom that attacked him was relieved by the use of TEETHINA, and he began to smile and chatter again. I have since used TEETHINA on all my children, and have never known a child suffer from teething who has not been relieved by its use. I have given it to all mothers of young children. I found TEETHINA a most valuable remedy, and have passed it on to you.

Rules Against Smoking, is Enforced by Common Consent.
 Visitors in the galleries of these-often called senators on the floor engaged in masticating with the slow deliberation that characterizes the use of tobacco or gum, says the Washington Star. Up to the present time it has not been developed that any of the senators use gum, though a number of them habitually chew the weed. This habit has been made more general on the part of many senators who were inveterate smokers when they came here, and who found so many rules against the smoking of tobacco at the capital. Of course, the cloak rooms and committee rooms are at all times available for smoking, but it frequently happens that certain senators, wishing to follow the debate in the senate chamber, and missing their cigar, get in the habit of stowing away a small piece of the weed for chewing purposes where they can use it as a substitute for the cigar. The rules against smoking about the senate in their application to senators are peculiar. They are enforced by common consent. If a senator is seen violating an established rule made by the committee on rules he may be reminded of that fact as if he had unconsciously violated it, which is generally the case. But the gentle reminder is the only method for enforcing the rules that is ever used. The senate proceeds on the principle that gentlemen will obey such rules of their own body without further effort than to suggest that they exist. The thorough way in which the rules are respected shows that their confidence is not violated.

HYGIENE FOR PLANTS.

Vegetable Life, According to a Botanist, Requires Rest and Sleep.
 "Trees and plants," said a botanist, "require sleep as well as food."
 "No matter how hearty they may be, want of rest will cause them to grow old and withered before their time."
 "This is especially shown in the case of trees and flowers in towns. The main reason that they do not flourish as they do in the country is that they are kept awake too much at night. The smoke and dust of cities, have something to do with it, but one of the principal causes of their unhealthiness is want of proper sleep."

"Of the causes which keep such trees and flowers constantly wakeful there is the matter of noise in all its forms and the vibration which results from the incessant activity of city life. Plants and flowers of all kinds sleep best away from the glare. So the lights of a city, which shine all through the night, must contribute to this interference with vegetable sleep."

"You may wonder why plants should need sleep since they do not move about like animals or perform any work in the ordinary sense, but alternate periods of activity and rest are required by all forms of life, and where this natural law is interfered with bad results follow."—Washington Star.

HOW HE PROPOSED.

The Actual Performance Was Quite Unlike the Previous Behaviors.
 He wished to propose to the girl of his choice, but he was nervous. First he thought of the old romanticist: "By my halidom, fair one, I would fain take thee for my bride. Say thou wilt be mine, and ere the sun glides the turrets of yonder castle the firar shall unite us in holy bonds."

In the face of the prevalent rage for dramas of the olden style, this form seemed satisfactory. Being an eminently modern young man, however, he thought again and determined to test the theatrical mode. But just at that moment the fair Mary tripped into the room, and he blurted out:
 "—Mary—er—will you—er—well—"

But Mary was far from being content. "O, that's all right, George," said she, "I know what you mean. Why, of course, I will. Papa will be delighted!"—Stray Stories.

Value of a Virtuous Woman.
 In the churchyard of Leigh, near Bolton, will be found a tombstone bearing the following amazing sentence: "A virtuous woman is 5s. to her husband." The explanation seems to be that space prevented a "crown" being cut in full, and the stonemason argued that a crown equals five shillings.

In the Antarctic Region.

Within the antarctic circle there has never been found a flowering plant. In the arctic regions there are 762 different species of flowers.

It shows the inherent desire of a woman to be helpful that her chief complaint against suffering is often that she cannot work. What must such a condition mean to the woman who must work if she would live? There is no woman so independent of spirit as a working woman. And yet there are many self-dependent women struggling on day by day, knowing that they must soon break down and become dependent on others.
 For weak, run-down, over-worked women there is new life and new strength in Dr. Pierce's Favorite Prescription. It cures backache, headache, nervousness, sleeplessness and other consequences of womanly diseases, by curing the diseases which cause these ills. It establishes regularity, dries weakening drains, heals inflammation and ulceration, and cures female weakness. "I suffered from female weakness for three years so that I could not work," writes Miss Clara Peterson, of Manhattan, Ill. (Box 253). "Was all run-down, only weighing ninety pounds (used to weigh one hundred and thirty pounds). I used your 'Favorite Prescription' and one box of your 'Lotion Tablets,' and can now do all kinds of work, thanks to Dr. Pierce's medicines."

good deal of discussion and the size
of the prizes to be awarded is sure
to make the election a warm one.

Appeal For Law.

Commonwealth's Attorney How-
ell, who returned from Eddyville
yesterday, says the following poem
was pinned to the door of one of the
grand jurors:

Enforce the law

On every one,

That pulls a knife

Or takes a gun.

GRASSHOPPERS USEFUL.

Western Farmers Are Now Feed-
ing Them to Their Tur-
keys.

Farmers in Western Kansas,
Eastern Colorado and Southwest-
ern Nebraska no longer look upon
the grasshopper as a pest and a
menace to crops. Instead, the in-
sect is regarded as a valuable as-
set and the arrival of aswarm of in-
sects is hailed with much delight as
a good harvest from some minor
crop. The reason of the change in
the attitude of the farmers toward
the grasshopper is the result of the
discovery that they are excellent
food for turkeys.

More than a quarter of a century
ago grasshoppers raided and de-
stroyed thousands of dollars worth
of crops in Kansas and gave this
state the first reputation for suffer-
ing. The farmers in those days
raised no turkeys, and the insects
had full sway.

Today thousands of turkeys are
owned in the western part Kansas.
The fowls live almost exclusively on
grasshoppers and consume between
a pint and a quart of the insects ev-
ery day.

AT BAPTIST CHURCH.

V. M. C. A.'s Interesting Meeting
For Next Sunday Night.

The Executive Committee of the
Y. M. C. A. met last night at the
Christian church.

The public will doubtless recall
that the last of the union services
were to be held in the interest of the
Y. M. C. A. Hence Sunday night
next, 8 o'clock, at the Baptist
church, this meeting will be held,
the Rev. H. D. Smith, of the Chris-
tian church, being in charge. No
set address will be delivered, but a
number of brief, breezy talks will
be made. The choir of the city
will probably unite in an interest-
ing song service. All the young
men of the city interested in this
movement, which, among other good
things, assures them a capital gym-
nasium, will be especially wel-
comed. No subscription will be
asked for. By order of the commit-
tee.

RESOLUTION OF RESPECT.

James Moore Lodge Number Two
Hundred and Thirty F.
& A. M.

Pee Dee Ky., August, 23 1902—

Whereas, it has pleased the Grand
Master of the Universe to call from
our midst Bro. D. S. Mason, who died
August 17, 1902, and we mourn
deeply the loss of our departed
brother but must bow in humble
submission to the divine will who
doeth all things well; therefore be
it ordained that we extend to his
beloved family our deepest, heart-
felt sympathy and commend them
to Him whose sweet peace passeth
all understanding. Resolved, that
a copy of these resolutions be sent
to the family of our deceased brother,
and a copy be spread on the
minutes of the lodge and acopy sent
to the county paper for publication.

Farewell Party to "Cadet" Riley.

A most enjoyable event and one
which will be memorable to all who
were present, was the farewell party
given Friday, August 22, to
Napoleon W. Riley, son of Mr. and
Mrs. J. W. Riley.

After spending his vacation at
home with relatives and friends,
Mr. Riley was about to leave for
West Point.

The guests were most charmingly
received by the host and hostess,
and were delightfully entertained
the entire evening. Refreshments
were served in the dining room,
which was beautifully decorated in
red, white and blue and an original
floral design. The favors were
small American flags.

Music and dancing were the
principal features of the evening.

Wishing the honored gentleman
many happy returns and unbound-
ed success, the guests departed at
a late hour. One of the Guests

A Cure for Cholera Infantum.

"Last May," says Mrs. Curtis
Baker, of Bookwalter, Ohio, "an
infant child of our neighbor's was
suffering from cholera infantum.
The doctor had given up all hopes
of recovery. I took a bottle of
Chamberlain's Colic, Cholera and
Diarrhoea Remedy to the house,
telling him I felt sure it would do
good if used according to directions.
In two days' time the child had
fully recovered, and is now (nearly
a year since) a vigorous, healthy
girl. I have recommended this rem-
edy frequently, and have never
known it to fail in any single
instance." For sale by C. K. Wyly.
